| CAPACITY | VOLTAGE             | WEIGHT | DIMENSIONS          |
|----------|---------------------|--------|---------------------|
| 600Lt    | 380V / 50Hz 3 Phase | 216kg  | 1000 x 655 x 1020mm |

## PRODUCT OVERVIEW

The Butcherquip Smoking Cabinet 600Lt is a professional-grade stainless steel unit designed for large-scale meat smoking and curing in butcheries, delis, and smokehouses. It features digital temperature control, fan-assisted convection, and natural convection smoking with wood chip ignition. Includes 15 aluminium rods, a sawdust grid, ashtray, and expanded mesh tray.

## KEY FEATURES

- Durable stainless steel construction
- Digital electronic temperature control
- Fan-assisted convection for even drying
