

Anvil Oil Jacketed Pot Electric - 225Lt

PRODUCT CODE NOT STATED | BRAND Anvil

CAPACITY	POWER	VOLTAGE	NET WEIGHT
225L	18kW	380V 3 Phase \((N+E)\)	120kg

PRODUCT OVERVIEW

The Anvil Oil Jacketed Pot Electric - 225Lt is a commercial-grade cooking unit designed for bulk food preparation in restaurants, hotels, and institutional kitchens. Constructed from 304 stainless steel with incoloy heating elements immersed in oil, it provides even heat distribution. Features include a safety drain valve, insulated lid handles, and dual-protection thermostat controls. The unit operates at 18kW, 380V 3-phase, and weighs 120kg.

KEY FEATURES

- Premium safety drain valve to prevent burn injuries
- 0.9mm grade 304 stainless steel lid with heat-insulated handles
- High-grade 304 stainless steel construction
