

Salvadore Back Bar Cooler Single Hinged Door

PRODUCT CODE NOT STATED | BRAND Salvadore

CAPACITY	NUMBER OF SHELVES	VOLTAGE	POWER CONSUMPTION
133L	2	230V 50Hz	1.393kW / 24HRS

PRODUCT OVERVIEW

The Salvadore Back Bar Cooler is a single-hinged door undercounter chiller with a glass front, designed for bars and hospitality venues. It features a digital thermostat, automatic defrost, and adjustable shelves. Constructed with thick cyclopentane insulation and a roll-bond evaporator, it operates on R600a refrigerant and includes a standard lock and adjustable feet.

KEY FEATURES

- Single hinged glass door with self-closing mechanism
- Digital thermostat for precise temperature control
- Automatic compressor defrost system
