PRODUCT OVERVIEW

DIHR Overhead Pre-Rinse Spray Water Saver is a commercial-grade pre-rinse unit designed for high-volume dishwashing in professional kitchens. It features an overhead mounting system with a coiled hose and spray nozzle for efficient food debris removal, reducing soil load on dishwashers. The unit promotes water and energy savings, enhancing operational efficiency.

KEY FEATURES

- Ergonomic overhead mounting for improved workflow and operator comfort
- Precision spray pattern for thorough coverage with minimal water waste
- Coiled hose for flexible reach and retraction
